Flipkart Website —5 Bug Report

BUG 1 – Broken / Dead Link in "Offers" or Category Banner

Steps

1. Open the Flipkart website (flipkart.com).
2. On the homepage, click a promotional banner or an "Offers" tile (e.g., a seasonal sale banner).
3. Wait for the destination page to load.

Expected Result

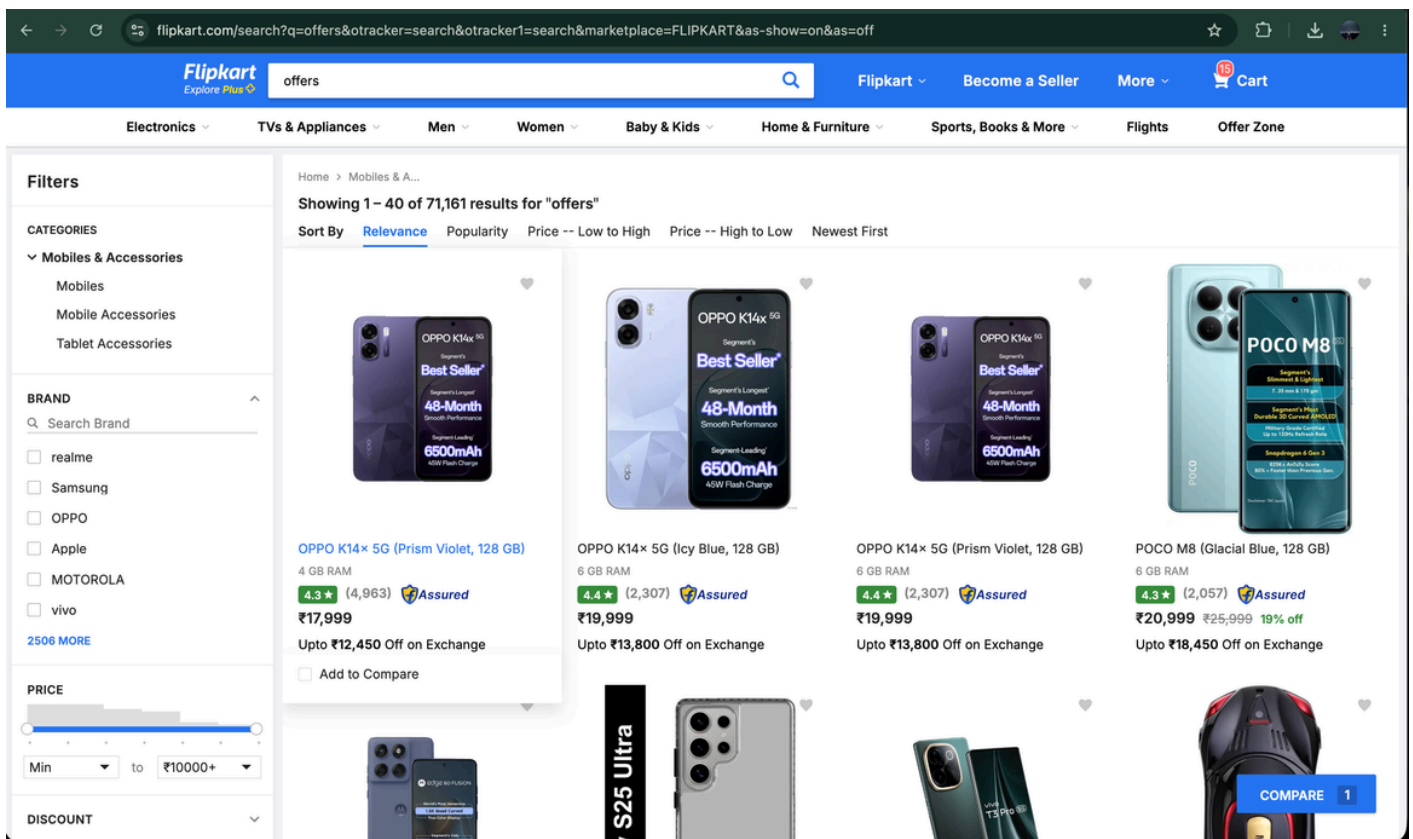

The banner should navigate to the correct offer/category listing page.

Actual Result

The link opens a 404 "Page Not Found" error or redirects to an unrelated/expired offer page.

Impact

Users lose trust in ongoing promotions and may miss active deals, directly affecting potential sales conversions.

BUG 2 – Responsive UI Issue in Mobile View

Steps

1. Open the Flipkart website on desktop Chrome.
2. Open Chrome DevTools (F12) and toggle Device Toolbar.
3. Switch to a mobile device profile (e.g., iPhone 12 or Galaxy S21).
4. Refresh the page and observe the homepage / product listing layout.

Expected Result

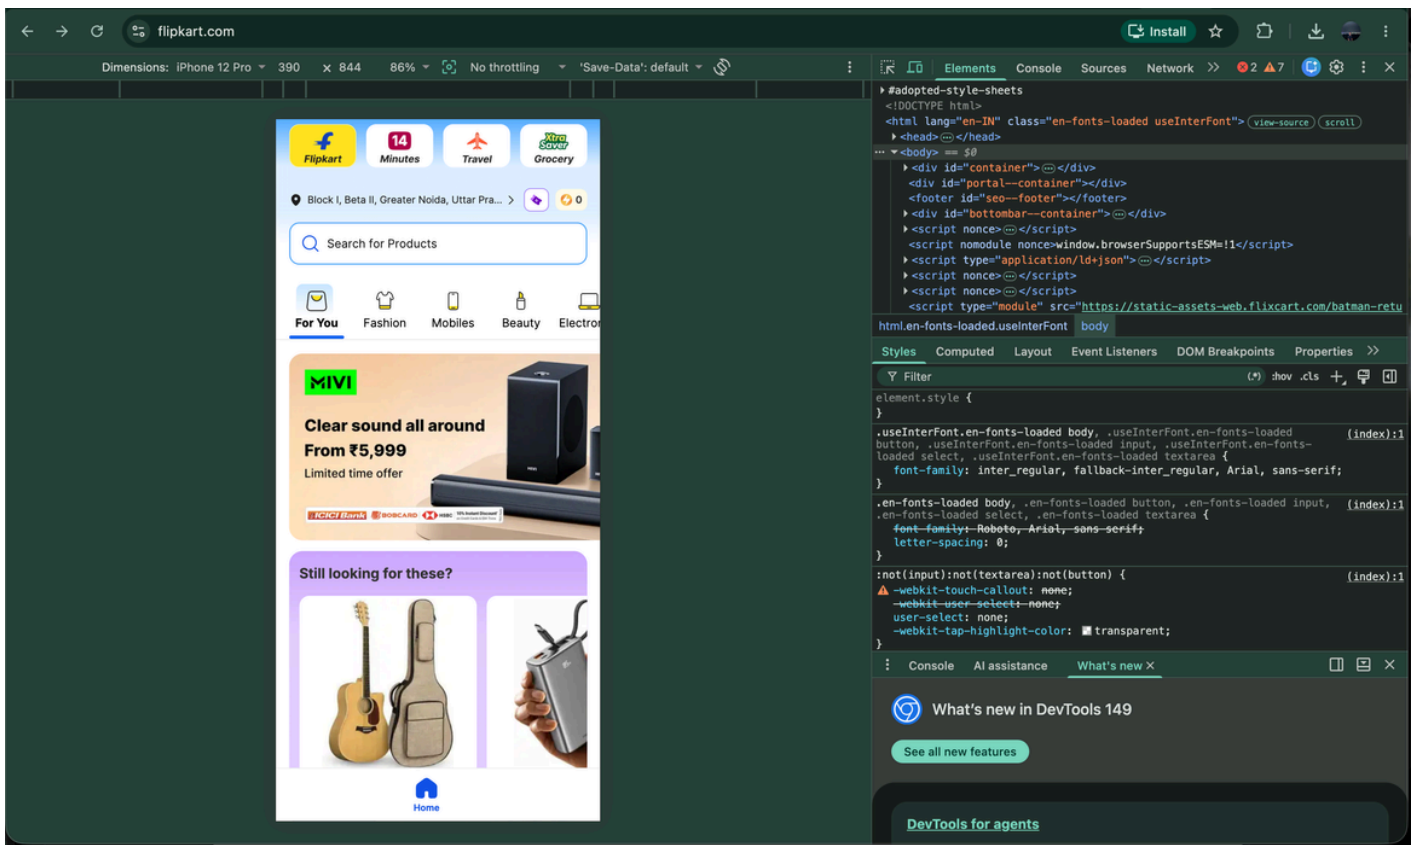

The homepage and product grid should reflow correctly, with the search bar, filters, and product cards aligned and fully visible.

Actual Result

The filter sidebar overlaps product cards, the search bar text gets clipped, and some category icons wrap awkwardly onto two lines, breaking alignment.

Impact

Since a majority of Flipkart's traffic is mobile, this significantly degrades usability and can increase bounce rate.

BUG 3 – Search Functionality Not Returning Relevant Results

Steps

1. Open the Flipkart website.
2. Click on the search box in the header.
3. Enter a valid, common keyword (e.g., "wireless earphones under 1000").
4. Click the search icon / press Enter.

Expected Result

Relevant, in-stock products matching the keyword and price filter should be displayed, sorted by relevance.

Actual Result

The results include several unrelated items (e.g., mobile covers, chargers) mixed in with earphones, and a few listed products are out of stock or priced above the searched range.

Impact

Users waste time filtering through irrelevant listings, reducing the chance of completing a purchase.

The screenshot displays the Flipkart search results for the query "wireless earphones under 1000". The page layout includes a top navigation bar with the Flipkart logo and search bar, a category filter on the left, and a main product grid. The search results are sorted by Relevance. The products shown include TRIGGR Arcus One and boAt Rockerz models. The filters on the left include Categories, Brand, Connectivity, Color, Compatible With, Headphone Design, Price, and Discount. The search results are sorted by Relevance. The page also shows a 'Bestseller' badge for some products and a 'COMPARE' button for one product.

BUG 4 – Homepage Banner / Product Image Loading Issue

Steps

1. Open the Flipkart website on a moderate/throttled network connection.
2. Wait for the homepage rotating banner and product thumbnails to load.
3. Observe the banner carousel and "Deals of the Day" section images.

Expected Result

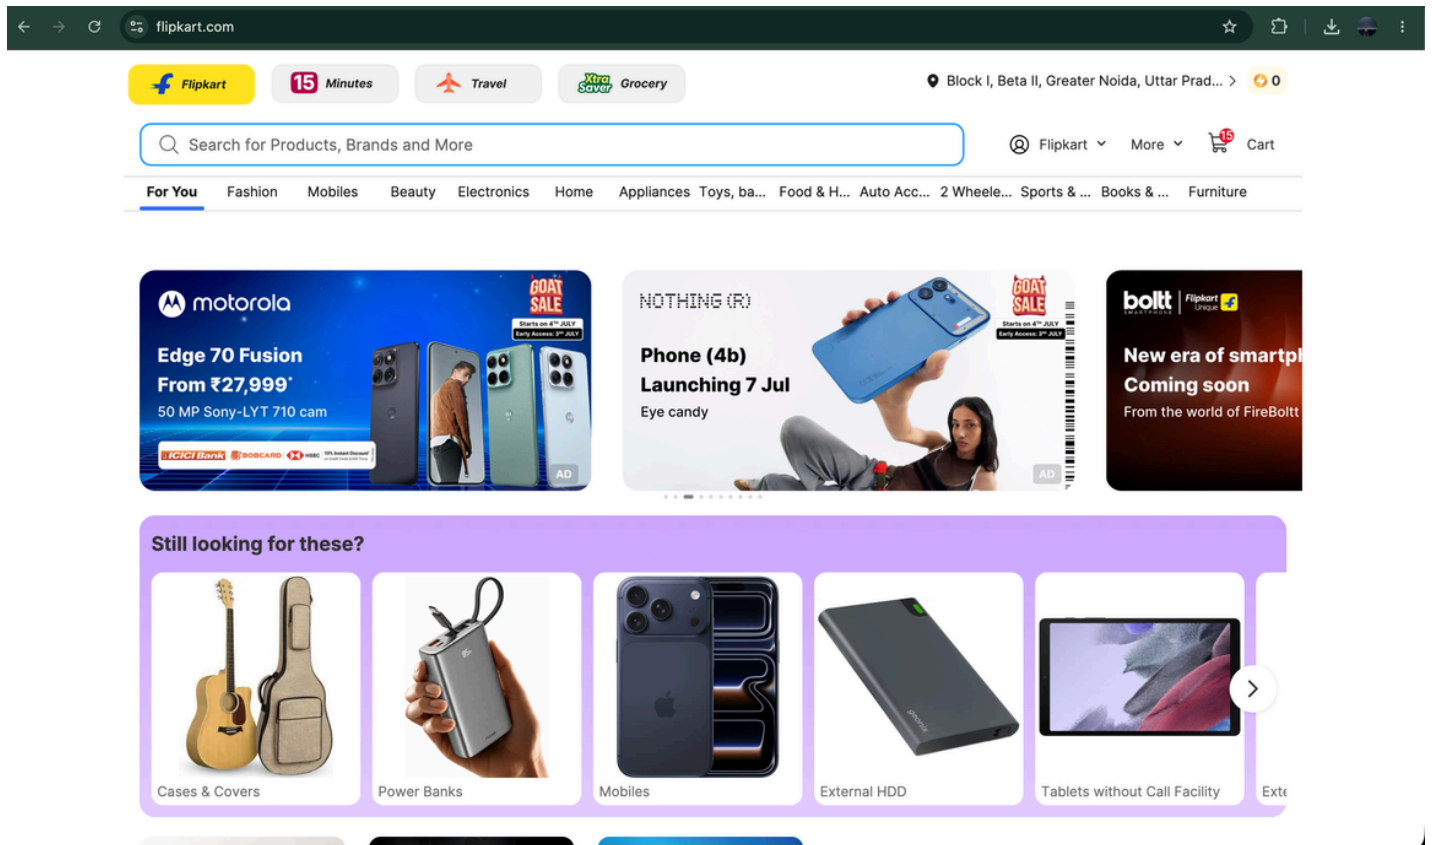

All banner and product images should load promptly with a smooth fade-in, or show a proper loading skeleton.

Actual Result

Several banner images show a blank white box or a broken-image icon for a few seconds, and some product thumbnails in "Deals of the Day" fail to load at all on refresh.

Impact

The homepage looks unpolished and unprofessional, which can reduce user confidence, especially for first-time visitors.

BUG 5 – Cart Quantity Update Not Reflecting Correct Total Price

Steps

1. Open the Flipkart website and log in.
2. Add a product to the cart.
3. Open the cart page and increase the quantity using the "+" button (e.g., from 1 to 3).
4. Observe the updated total price on the cart summary.

Expected Result

The item subtotal and overall cart total should update instantly and accurately to reflect the new quantity.

Actual Result

The quantity counter updates, but the total price briefly shows the old value, and occasionally does not refresh until the page is manually reloaded.

Impact

Users may be misled about the actual payable amount, causing confusion or checkout hesitation, and eroding trust in billing accuracy.

The screenshot shows the Flipkart checkout page at the URL `flipkart.com/viewcheckout?loginFlow=false&checkoutInitiated=true`. The page is divided into three main sections: Address, Order Summary, and Payment. The Order Summary section displays the delivery address for Aman Singh and a product, HEALTHKART HK Vitals Multivitamin with Probiotics, Immunity and Gut ... (60 Tablets). The product is marked as a 'Hot Deal' and has a 25% discount, reducing the price from ₹419 to ₹314. The Price Details section on the right shows the MRP (incl. of all taxes) as ₹419, Fees as ₹9, and Discounts as ₹105, resulting in a Total Amount of ₹323. A green banner indicates 'You'll save ₹96 on this order!'. The bottom of the page features a footer with links for ABOUT, GROUP COMPANIES, HELP, CONSUMER POLICY, and Mail Us, along with contact information for Flipkart Internet Private Limited.
